ABSTRACT

The main aim of the project is the management of the database of *ART GALLERY*.

This project is insight into the design and implementation of a Art Gallery Management. This is done by creating a database of the available details in Art Gallery. The primary aim of this Art Gallery Management System is to improve accuracy and enhance safety and efficiency of tracking and keeping details of art and paintings in art gallery. I have developed this software for ensuring effective policing by providing statistics of the Members.

The MYSQL database is used as a platform along with PHP and WAMP Server support. Application and the GUI are developed in HTML5, CSS3 using PHP and WAMP Server.

Overall this Art Gallery Management System is used to manage most art related activities like exhibitions, gallery management, art stocks etc. in gallery.

ACKNOWLEDGEMENT

The satisfaction and euphoria that accompany the successful completion of any task would be incomplete without the mention of the people who made it possible and whose constant encouragement and guidance crowned our efforts with success.

I consider myself proud, to be part of **Global Academy of Technology** family, the institution which stood by our way in endeavours.

I express my deep and sincere thanks to our Principal **Dr. N. Rana Pratap Reddy** for his support.

I am grateful to **Dr. Kavitha C**, Professor and HOD, Dept of CSE who is source of inspiration and of invaluable help in channelizing my efforts in right direction.

I wish to thank my internal guide **Mrs. Snigdha Sen**, Asst. Professor, Dept of CSE for guiding and correcting various documents of mine with attention and care. She has taken lot of pain to go through the document and make necessary corrections as and when needed.

I would like to thank the faculty members and supporting staff of the Department of CSE, GAT for providing all the support for completing the Project work.

Finally, I am grateful to my parents and friends for their unconditional support and help during the course of my Project work.

ASHUTOSH RANJAN
